

## PROPERTY OF FRODO.

## Interesting Meeting of the Society of Spiritualists.

"Coming events cast their shadows before," is an old adage whose truthfulness has received very striking confirmation in some recent Fort Worth events. The fact that the serious trouble which resulted in the killing of A. B. Smith by H. M. Page, an account of which appeared in the Telegram recently, was definitely revealed by Prof. Search at one of his seances held at the residence of Mrs. Hyman on the Saturday evening previous, is well known. The seance which took place at the "old John Nields place" on the evening of March 24th was also predicted by the same powerful medium on the Thursday night previous. These prophecies are fulfilled and one to a matter of history known to many of the best citizens of Fort Worth. At another seance held at Mrs. Hyman's on the night of March 26th, Prof. Search said "the people of Fort Worth will witness one of the largest fires the city has ever seen." This message he said, came from the spirit of A. B. Smith, who had just passed over. Dr. John White of the Linear Institute, being present, rendered this prophecy more definite by saying, "statingly, 'it will be within thirty to sixty days.' Of course the last prophecy has not yet been fulfilled, but the remarkable fulfillment of the others together with many similar occurrences known to individuals, and all counted with the fact that Prof. Search's forecasts have always been correct, should lead the people of Fort Worth to at least give some thoughtful attention to the matter.

In view of such facts the subject of a "Continental prophecy" has been discussed before large audiences at the Society of Spiritualists during the last two sabbaths. The subject proved to be so interesting that at the last meeting the congregation requested the president to publish an outline of the facts and forecasts presented, which, in addition to the above are as follows: On the first Sabbath, March 19th, the position was taken by the president in his opening discourse that prophecy was continuous, all along down the ages. It did not cease, as "orthodox" teachers, when the last book of the Bible was finished. Numerous incidents in the history of both nations and individuals were quoted to prove this. One of the most striking and well known was Lincoln's prophecy concerning the present labor trouble, which is as follows:

"I see in the near future a crisis coming that will shake the very foundations of this country. As a result of the war, conscriptions have been exhausted, and an era of corruption in high places will follow, and the money power of the country will endeavor to prolong its reign by working upon the prejudices of the people until all wealth is aggregated in a few hands and the republic is destroyed. I feel at this time more anxiety for the safety of my country than ever before, even in the midst of the war. God grant that my fears may prove groundless." The predictions of Washington, China and others concerning the same event were also cited.

Extracts from Prof. J. B. Buchanan's celebrated article published in the Arena for August, 1890, were also read. Prof. Buchanan said at that time, "The Republican party will be hurled from power. A Democratic administration will come in, and that you will fail to give satisfaction. It will be succeeded by what may be called the labor party."

Nineteen years hence war or great war will appear in this country and the revolution will not be arrested until about 1910. The six years prior to that date will be the most calamitous that America has ever seen."

It will be a labor and capital war, intensified with a religious element of blood. The church as a power will be thoroughly shattered. Labor, he said, will eventually triumph and "demolish every form of monopoly." Many other events were foretold referring both to Europe and America which have thus far been fulfilled.

Rev. Dr. Search in an able talk amply sustained the position taken.

On the following Sabbath the prophecies of L. K. Hartman for the first, together with "Mother Shipman's prophecies," were read and Dr. Search delivered a very learned discourse on the subject. Prof. Hartman, whose forecasts for 1891 were wonderfully accurate, predicted labor troubles, strikes, business failures, crimes, disasters, great social excitement in Washington with signs of bloodshed, progress in science and inventions, "with some benevolent reforms" and "better times early in the summer."

"Mother Shipman's prophecy," as it is

called, was uttered in 1851, and is as follows: Carriages without horses shall go. And accidents fill the world with woe. Around the world thoughts shall fly in the twinkling of an eye. Waters shall yet more wonders do. How strange, yet shall be true. The world shall quake down round us. And gold be found at foot of tree. Through hills men shall ride. And no horse nor ass be at his side. Under water men shall walk. And fish shall speak and shall talk. In the air men shall be seen. In white, in black, in green. Iron in the water shall float. As now as a wooden boat. Gold shall be found mid stream. In a land that's now unknown. Fire and water shall wonders do. England shall at last admit a Jew. And this world in an end shall come. In eighteen hundred and eighty-one."

It is well known that all these prophecies have been fulfilled except the last, as was shown by Dr. Search. While the world has not come to an end in the sense of being "burned out" as some people believe it will be, yet in a high, world-wide sense, looked at from the standpoint of evolution, it is certain that we are at the end of the sixth great period of civilization and are entering the seventh. Dr. Search showed how the race had passed through 1. the Egyptian; 2. the Assyrian; 3. the Hindu; 4. the Semitic; 5. the Greek-Roman; and 6. the Christian types of civilization. The next upon which we are now entering, will be the scientific-spiritual, which comes in natural evolution from the others, especially the last, as the Christian culture or world, as seen by the prophet is actually coming to an end now. The discussion was continued by several sections present and was regarded as one of the most delightful and profitable in the history of the society.

**CATARRH IN CHILDREN**  
For over two years my little girl's life was made miserable by a case of Catarrh. The discharge from the nose was large, constant and very offensive. Her eyes became inflamed, her lids swollen and very itchy. After trying various remedies, I gave her Catarrh. The first bottle seemed to soothe the inflammation, but the symptoms soon abated, and in a short time she was cured.
